Raees Jaffar

PROFESSIONAL PROFILE

I am currently studying multimedia applications at Cape Peninsula University of Technology (CPUT) as part of an IT Diploma Program. I have built an excellent understanding of digital design, multimedia production and web development and I can take a concept and create a working and visually appealing digital solution for a business. My passion lies in technology, creativity, and innovation and I continue to strive to produce top quality work. I am adaptable and disciplined, possess excellent communication and people skills, can work successfully both alone and within a team, and add value through my creativity or technical skills.

WORK EXPERIENCE

LEADER OF AN ACADEMIC PROJECT TEAM
Cape Peninsula University of Technology | 2023 – 2026

- Managed and organized the execution of multi-faceted multimedia and IT based group projects throughout individual course modules.
- Developed project timelines by allocating necessary tasks to group members and ensuring that all deliverables were met at both academic and professional levels.
- Created multimedia resources; in particular, digital graphics, presentations and promotional-type products.
- Created procedural documentation for each project including description/technical outline type documents, proposal and final report documents.

Presented the project deliverables to both faculty and fellow students.
