LOGBOOK

Date:	27 July 2026	
Monday	1. What did I complete since the last standup?	Online Classes
	2. What am I planning to complete between now and the next standup?	Online Classes
	3. What are my impediments (or risks or problems)?	Online Classes

Date:	28 July 2026	
Tuesday	1. What did I complete since the last standup?	I attended the scheduled WIL Projects session; however, our lecturer was absent due to illness, so no formal activities or presentations took place. I used the available time to review my team's project documentation and familiarise myself with our Figma prototype before the upcoming presentation.
	2. What am I planning to complete between now and the next standup?	I will prepare for our Figma prototype presentation by reviewing my allocated section and ensuring that I am confident explaining our application's design and functionality. I also plan to discuss any final improvements with my teammates before presenting.
	3. What are my impediments (or risks or problems)?	The lecturer's absence meant that we could not receive any progress updates or feedback during today's session. My main focus is to remain prepared for the presentation once sessions resume.

Date:	29 July 2026	
Wednesday	1. What did I complete since the last standup?	I attended the WIL Projects session and presented my group's Figma prototype for our carpooling application to the lecturer. During the presentation, I explained my allocated sections and contributed to demonstrating the overall design, user flow, and functionality of our prototype. The presentation allowed us to showcase the progress we had made as a team.
	2. What am I planning to complete between now and the next standup?	I will review any feedback received from the lecturer and discuss possible improvements with my teammates. I also plan to continue updating our project documentation to reflect the progress made during this sprint.

	3. What are my impediments (or risks or problems)?	There were no significant blockers during today's presentation. My priority is to ensure that any feedback received is incorporated into our project before moving on to the next phase.

Date:	30 July 2026	
Thursday	1. What did I complete since the last standup?	No WIL Projects session was held today because our lecturer was still absent due to illness. Although there was no formal session, I took the opportunity to review the work completed so far and organise my project files and documentation.
	2. What am I planning to complete between now and the next standup?	I will continue preparing for the next WIL Projects session and ensure that all of my project documentation is up to date. I also plan to be ready to continue working on any tasks once sessions resume.
	3. What are my impediments (or risks or problems)?	The cancellation of today's session meant that we were unable to receive further guidance or feedback from our lecturer. I will remain prepared to continue with project activities once classes resume.

Date:	31 July 2026	
Friday	1. What did I complete since the last standup?	No WIL Projects session took place today because our lecturer was still recovering from illness. I used the time to review our group's project progress and ensure that my work and documentation were organised for the following week's activities.
	2. What am I planning to complete between now and the next standup?	I will continue preparing for the next WIL Projects session and be ready to contribute to any new project tasks assigned to the team. I also plan to maintain my Agile Logbook so that it accurately reflects the work completed.
	3. What are my impediments (or risks or problems)?	The lecturer's continued absence meant that there were no scheduled project activities or opportunities to receive feedback. My priority is to remain prepared so that I can continue contributing effectively once sessions resume.
