LOGBOOK

Date:	3 August 2026	
Monday	1. What did I complete since the last standup?	Online Classes
	2. What am I planning to complete between now and the next standup?	Online Classes
	3. What are my impediments (or risks or problems)?	Online Classes

Date:	4 August 2026	
Tuesday	1. What did I complete since the last standup?	I worked on implementing the frontend functionality for our carpooling application, RideConnect. The main focus was to turn our existing frontend design into a functioning application and ensure that the different interface elements worked as intended. I also worked alongside the other groups as we progressed with implementing our respective applications.
	2. What am I planning to complete between now and the next standup?	I will continue reviewing the frontend application and make any necessary improvements to ensure that the functionality works correctly. I also plan to prepare for the upcoming presentations of our updated Trello board and brand guide.
	3. What are my impediments (or risks or problems)?	The main challenge was ensuring that the frontend functionality worked correctly while staying consistent with the original design of the application. I will need to review the application carefully to identify any issues before the next presentation.

Date:	5 August 2026	
Wednesday	1. What did I complete since the last standup?	I continued working on the development of our frontend application for RideConnect and reviewed the progress made so far. I also worked with my group to ensure that our project documentation and presentation materials were prepared for the upcoming Trello board and brand guide presentations.
	2. What am I planning to complete between now and the next standup?	I will finalise and present our updated Trello board, ensuring that our tasks and sprint progress are accurately reflected. I will also continue preparing our brand guide presentation with my group.

	3. What are my impediments (or risks or problems)?	There were no major blockers during the day. My main concern was ensuring that our project documentation and presentation materials were sufficiently prepared and consistent with the work completed by the group.

Date:	6 August 2026	
Thursday	1. What did I complete since the last standup?	I presented our group's updated Trello board to our lecturer as part of the WIL Projects activities. I explained the progress of our project and showed how our tasks had been organised and updated according to the work completed by the team. I also continued preparing for our brand guide presentation.
	2. What am I planning to complete between now and the next standup?	I will finalise our RideConnect brand guide and prepare for the presentation. I will review the different brand elements with my group and ensure that our presentation is ready for the following day's session.
	3. What are my impediments (or risks or problems)?	There were no significant blockers with the Trello presentation. My main focus was ensuring that the brand guide was completed and that all group members were prepared to present their respective sections.

Date:	7 August 2026	
Friday	1. What did I complete since the last standup?	I participated in the final RideConnect brand guide presentation activities with the other groups. We presented our brand guide and discussed the branding elements developed for our carpooling application. We were also introduced to our next task, which required us to complete and submit a monthly report and register form. I completed and submitted the required documents on the same day.
	2. What am I planning to complete between now and the next standup?	I will review the requirements for the next stage of the WIL Projects and begin planning how I will approach the upcoming report and project activities. I will also continue contributing to the development and improvement of the RideConnect application.
	3. What are my impediments (or risks or problems)?	The main challenge was completing the required report and registration form within the same day as the final brand guide presentations. I had to manage my time carefully to ensure that both the presentation activities and the required

		documentation were completed and submitted on time.
